

Ciklum Moves into a New Office in Kharkov

KYIV, Ukraine – October 8, 2009 – Ciklum, a Danish IT outsourcing company that specializes in nearshore software development in Ukraine, has united its two existing offices in Kharkov under one roof of the newly built Business Center.

The new office location is strategically chosen to be enjoyable for both business and pleasure. In addition to being located next to the metro station and hotels, Ciklum's employees and clients can take advantage of the great facilities located in the surrounding area. The new office is close to the spectacular Kharkov's Botanical Garden, great places to eat, trendy cafes, bowling centers, fitness clubs, etc.

The new office is an IT paradise with over 1500 sq/m of work space, separate server rooms, four meeting rooms with the latest videoconferencing equipment, a recreational area and a cafeteria as well as own parking space and a great view of the city.

"This unification is part of the company's overall goal to have only one office in each of the cities Ciklum is currently present at in Ukraine. Ciklum's next big step is to unite all three offices we currently have in Kiev. Having one office in a city is very important for our community of knowledge sharing and day-to-day communication between our clients and teams within Ciklum," says Karen-Marie Kragelund, the Administrative Director of Ciklum.

About Ciklum

Ciklum (www.ciklum.net) is a Danish IT outsourcing company specializing in nearshore software development in Ukraine by establishing and servicing clients' dedicated development teams. The environment of services and knowledge sharing within the company helps clients to market quickly and with less risk and minimal investment.
